July 1 CENTCOM Update

From U.S. Central Command

July 1, 2024

TAMPA, Fla. – In the past 24 hours, U.S. Central Command forces successfully destroyed one Iranian-backed Houthi radar site in a Houthi controlled area of Yemen.

It was determined the radar site presented an imminent threat to U.S., coalition forces, and merchant vessels in the region. This action was taken to protect freedom of navigation and make international waters safer and more secure.
