

Naval Reactors Awards Naval Nuclear Laboratory Contracts to Fluor Marine Propulsion

WASHINGTON – Naval Reactors, a joint program of the Department of Energy (DOE) and the Department of the Navy (DON), has selected Fluor Marine Propulsion LLC (FMP) as the new DOE and DON contractor for the Naval Nuclear Laboratory (NNL), Naval Reactors Public Affairs said in July 13 release. FMP, a limited liability company, is a wholly owned, special-purpose subsidiary of Fluor Corp.

Naval Reactors conducted a full and open competition for the new NNL contracts. The estimated combined award value of these contracts is approximately \$30 billion over ten years if all options are exercised.

The current DOE and DON contracts for the NNL with Bechtel Marine Propulsion Corp. expire on Sept. 30. An approximate three-month transition period commenced on July 12, which will provide stability for the workforce employed under the Bechtel NNL contracts and ensure essential continuity of operations for vital Naval Reactors work. The contracts awarded to FMP represent the best value to the government and will provide 10 years of stability for the NNL.

The NNL comprises the DOE-owned locations and personnel responsible for developing advanced naval nuclear propulsion technology, providing technical support to ensure the safety and reliability of our nation's naval nuclear reactors, and training the Sailors who operate those reactors in the U.S. Navy's submarines and aircraft carriers. The NNL includes the Bettis and Knolls Atomic Power Laboratories, the Kenneth A. Kesselring Site and the Naval Reactors Facility, which have supported the nation since 1946.
