

August 21 U.S. Central Command Update

From U.S. Central Command, Aug. 21, 2024

TAMPA, Fla. - In the past 24 hours, U.S. Central Command (USCENTCOM) forces successfully destroyed an Iranian-backed Houthi surface-to-air missile and radar system in a Houthi-controlled area of Yemen.

It was determined these systems presented a clear and imminent threat to U.S. and coalition forces, and merchant vessels in the region. This action was taken to protect freedom of navigation and make international waters safer and more secure for U.S., coalition, and merchant vessels.
