From BAE Systems

May 1, 2025 – BAE Systems received a \$172 million full-rate production (FRP) contract to produce 30 additional Amphibious Combat Vehicles (ACVs) as part of [the recently awarded FRP 5/6 contract](#).

The FRP 5/6 contract includes a series of options to produce up to 150 vehicles. The U.S. Marine Corps exercised the initial option last month for 30 vehicles, valued at \$188.5 million.

BAE Systems is also currently under contract for the ACV-Personnel and ACV-Command variants. Work on the ACV-30mm will take place in York, Pennsylvania; Johnstown, Pennsylvania; and Charleston, South Carolina through the fourth quarter of 2026.
