

Coast Guard, Navy Begin High Seas Oceania Maritime Security Initiative Patrol

Independence-variant littoral combat ship USS Tulsa (LCS 16), with an embarked Coast Guard law enforcement detachment from the Pacific Tactical Law Enforcement Team are conducting maritime law enforcement operations through the enforcement of international law and the Western and Central Pacific Fisheries Convention to protect United States and Pacific Island Nations' resource security and sovereignty. U.S. NAVY SAN DIEGO, Calif. – The U.S. Coast Guard and U.S. Navy began their joint mission in the Western and Central Pacific under the Oceania Maritime Security Initiative (OMSI) to reduce and eliminate illegal, unregulated, unreported (IUU) fishing, combat transnational crimes and enhance regional security, April 5, the U.S. 3rd Fleet said in an April 6 release.

Independence-variant littoral combat ship USS Tulsa (LCS 16), with an embarked Coast Guard law enforcement detachment from

the Pacific Tactical Law Enforcement Team, are conducting maritime law enforcement operations through the enforcement of international law and the Western and Central Pacific Fisheries Convention to protect United States and Pacific Island Nations' resource security and sovereignty.

The Oceania Maritime Security Initiative (OMSI) program is a Secretary of Defense program that leverages Department of Defense assets transiting the region to improve maritime security and maritime domain awareness, ultimately supporting regional stability and partnerships in Oceania.

"USS Tulsa is proud to contribute to the OMSI mission" said Cmdr. William Dvorak, Tulsa's commanding officer. "Working with the embarked U.S. Coast Guard law enforcement detachment, our crew is looking forward to supporting maritime security in the Indo-Pacific."

The OMSI improves maritime security and maritime domain awareness by enabling U.S. Coast Guard law enforcement personnel to conduct maritime law enforcement operations from U.S. Navy assets in coordination with the Western and Central Pacific Fisheries Commission.

"Our team is ready and excited to execute the OMSI mission," said Cmdr. Robert Berry, commanding officer of the embarked law enforcement detachment. "Collaborating with our U.S. Navy counterparts enables us to monitor and deter IUU fishing in the Western and Central Pacific and provides a presence for maritime surveillance and security in the region."

U.S. Coast Guard Ships Depart Puerto Rico on Mission to Strengthen Trans-Atlantic Ties

Vice Adm. Steven Poulin, commander, U.S. Coast Guard Atlantic Area, and Command Master Chief Devin Spencer, visit the crew of the Sentinel-class fast response cutter USCGC Charles Moulthrop (WPC 1141) in Puerto Rico prior to beginning their transit across the North Atlantic to Europe, March 31, 2021. The Moulthrop and USCGC Robert Goldman (WPC 1142) crews will continue to their new homeport of Manama, Bahrain, with brief stops for logistics and relationship building. Planning for the escort and deployment began last year to ensure smooth delivery of the fast response cutters, replacing the Island-class ships currently in operation under the U.S. Navy's 5th

Fleet command. *U.S. COAST GUARD/ Lt. Dana Wanjon*

ATLANTIC OCEAN – The Legend-class national security cutter USCGC Hamilton (WMSL 753) with the Sentinel-class fast response cutters USCGC Charles Moulthrop (WPC 1141) and USCGC Robert Goldman (WPC 1142) departed Puerto Rico on April 1 to transit the North Atlantic to Europe, Coast Guard Atlantic Area announced April 2.

“U.S. Coast Guard cutters have a long history of protecting America’s interests at home and abroad. This historic deployment demonstrates how we can strengthen our national security by extending the Coast Guard’s global reach and firming our commitments to allies and partners in the region,” Capt. Timothy Cronin, commanding officer, USCGC Hamilton.

Hamilton is escorting the fast response cutters across the Atlantic before conducting a patrol in the U.S. Navy’s 6th Fleet area of responsibility to maintain maritime security alongside NATO allies and partners. The Moulthrop and Goldman crews will continue to their new homeport of Manama, Bahrain, with brief stops for logistics and relationship building. Planning for the escort and deployment began last year to ensure smooth delivery of the fast response cutters, replacing the Island-class ships currently in operation under the U.S. Navy’s 5th Fleet command.

“Our primary goal for the fast response cutters is to complete the 9,000-mile voyage to homeport safely and efficiently. In addition, we will capitalize on opportunities to strengthen international partnerships promoting security and prosperity throughout some of the world’s busiest maritime trade routes,” Lt. Cmdr. Steven Hulse, commanding officer, USCGC Charles Moulthrop.

“We expect to showcase the capabilities of the fast response cutter, and the U.S. Coast Guard to advance the shared maritime strategy for security with the U.S. Navy and naval partners in the region, while concurrently engaging with them

on the more traditional U.S. Coast Guard missions of search and rescue, maritime law enforcement, and illegal fisheries enforcement,” said Lt. Cmdr. Samuel Blase, commanding officer, USCGC Robert Goldman.

The U.S. Navy and U.S. Coast Guard operate forward, from the littoral to the open ocean, ensuring stability and open sea lanes across all maritime domains. U.S. Coast Guard operations in U.S. 6th Fleet demonstrate the country’s commitment, flexibility and capability to operate and address security concerns throughout Europe and Africa, the Coast Guard said.

“The U.S. Coast Guard is a member of the joint force, a key and always-ready instrument to further national security objectives globally,” said Vice Adm. Steven Poulin, commander, U.S. Coast Guard Atlantic Area. “It’s been almost two decades since we sent the Island-class patrol boats to Bahrain. As we seek to modernize our asset support to the U.S. Navy in the Arabian Gulf, this is an excellent opportunity to advance partnerships and learn from our allies in the region.”

Hamilton is the fourth ship in its class. The Legend-class is the largest current cutter class of the U.S. Coast Guard. These vessels support various missions, including environmental protection, search and rescue, fisheries, port security, counterterrorism, law enforcement, drug interdiction, defense operations and other military operations.

Moulthrop and Goldman are the first two of six Sentinel-class ships headed to U.S. Patrol Forces Southwest Asia. Established in 2002 to support Operation Iraqi Freedom, PATFORSWA played a critical role in maritime security and maritime infrastructure protection operations. It is the U.S. Coast Guard’s largest unit outside of the United States.

PATFORSWA is currently providing U.S. Navy’s 5th Fleet and U.S. Central Command with combat-ready assets, using its

unique access to foreign territorial seas and ports, formulating strong and independent relationships with patterns throughout the Arabian Gulf, and leveraging the full-spectrum, flexible vessel boarding capabilities and maritime country engagements on the shore.

U.S. 6th Fleet, headquartered in Naples, Italy, conducts the full spectrum of joint and naval operations, often in concert with allied and interagency partners, to advance U.S. national interests and security and stability in Europe and Africa.

Based in Portsmouth, Virginia, U.S. Coast Guard Atlantic Area oversees all Coast Guard operations east of the Rocky Mountains to the Arabian Gulf. Also, they allocate ships to deploy to the Caribbean and Eastern Pacific to combat transnational organized crime and illicit maritime activity.

Coast Guard Cutter Walnut Arrives at New Homeport in Pensacola

The Coast Guard Cutter Walnut returns to its new homeport in Pensacola, Florida, March 31, 2021. The Walnut crew performed a major maintenance availability project to enable the 225-foot cutter to reach the end of its 30-year planned life service and was previously homeported in Honolulu. *U.S. COAST GUARD*

PENSACOLA, Fla. – The crew of Coast Guard Cutter Walnut arrived at the cutter’s new homeport, the Coast Guard 8th District said in a March 31 release.

The Walnut crew performed a major maintenance availability project to enable the 225-foot cutter to reach the end of its 30-year planned life service.

“The Walnut crew looks forward to our arrival in Pensacola, Florida, and values our role in supporting Coast Guard District Eight’s continued efforts to maintain a safe and effective maritime transportation system,” said Lt. Cmdr. Christopher Bonner, commanding officer of Coast Guard Cutter

Walnut. "As evidenced by the historic hurricane season of 2020, the Coast Guard and its buoy tender fleet played and will continue to play a critical role in responding to devastating natural disasters and reconstituting waterways in and around this nation's most critical maritime ports."

The dockside period included loading and inventorying thousands of pounds of critical shipboard materials and equipment, conducting mission critical training to prepare for possible shipboard casualties while underway, and conducting extensive maintenance and repair on most of the shipboard machinery, electronics and auxiliary systems.

The cutter Walnut is a 225-Foot seagoing buoy tender, which was previously homeported in Honolulu and will now be homeported in Pensacola, Florida. The cutter's primary missions are aids to navigation, search and rescue, maritime law enforcement, maritime environmental protection and national defense missions.

Coast Guard Offloads More than 19,600 Pounds of Cocaine, Marijuana

The crew of the Coast Guard Cutter Munro gather in formation behind seized contraband during a drug offload in Alameda, California, March 23, 2021. *U.S. COAST GUARD / Petty Officer 3rd Class Taylor Bacon*

ALAMEDA, Calif. – The crew of the Coast Guard Cutter Munro (WMSL 755) offloaded approximately 8,200 pounds of seized cocaine and 11,450 pounds of marijuana March 23 at the ship's homeport at Coast Guard Base Alameda, the Coast Guard Pacific Area said in a release.

Prior to the Munro's arrival in Alameda, the crew transferred 12 detainees, approximately 9,200 pounds of cocaine and 2,150 pounds of marijuana to law enforcement officials in San Diego.

The drugs, in total worth an estimated \$330 million, were seized in international waters of the Eastern Pacific Ocean between January and March, representing 15 suspected drug smuggling vessel interdictions off the coasts of Mexico, Central and South America by the following Coast Guard and Navy ships:

The Coast Guard Cutter Munro (WMSL 755) crew was responsible for nine interdictions, seizing approximately 10,200 pounds of cocaine and 11,450 pounds of marijuana.

The Coast Guard Cutter Bear (WMEC 901) crew was responsible for two interdictions, seizing approximately 66 pounds of cocaine.

The Coast Guard Cutter Vigilant (WMEC 617) crew was responsible for one interdiction, seizing approximately 1,870 pounds of cocaine.

The Coast Guard Cutters Bear and Munro conducted a joint interdiction, seizing approximately 3,747 pounds of cocaine.

Coast Guard Law Enforcement Detachment 107 deployed aboard the USS Freedom (LCS 1) was responsible for two interdictions, seizing approximately 1,600 pounds of cocaine and 2,150 pounds of marijuana.

Video of the news conference can be viewed at <https://fb.watch/4pThfJ-ra0/>, and footage of the offload can be viewed and downloaded at <https://www.dvidshub.net/video/788115/coast-guard-offloads-more-than-19600-pounds-cocaine-marijuana-alameda-calif>

“National security cutters like Munro are national-level assets and are game changers for the United States government’s maritime interdiction capability,” said Vice Adm. Linda Fagan, the commander of Coast Guard Pacific Area. “As your Coast Guard, we use our unique capabilities and authorities as a military service and a law enforcement agency to secure the nation’s maritime border and to disrupt illegal activity of dangerous cartels. This offload demonstrates another successful cycle of justice.”

“Transnational criminal organizations have not slowed down due to the pandemic, and the Coast Guard women and men continue to protect our nation on the frontlines,” said Capt. Blake Novak,

the commanding officer of the Munro. “Our crew intercepted a group of suspected smugglers, on average, every 90 hours for 45 days straight, seizing nearly 30,000 pounds of cocaine and marijuana valued at over \$330 million. Maintaining such a high level of performance was only possible because of a total team effort. This crew set the bar for excellence, and I am incredibly proud of all of them.”

Munro is one of four national security cutters homeported in Alameda. These Legend class cutters are 418-feet long, 54-feet wide, and have a 4,600 long-ton displacement. They have a top speed in excess of 28 knots, a range of 12,000 nautical miles, endurance of up to 90 days and can hold a crew of nearly 150.

Coast Guard to Rename Training Center Wing after Arnold Palmer

Golfing great Arnold Palmer in his Coast Guard days. *U.S. COAST GUARD*

PETALUMA, Calif. – The Coast Guard announced plans to rename a training wing after golfing legend Arnold Palmer at Coast Guard Training Center Petaluma, the Coast Guard 11th District said in a March 23 release.

Training Center Petaluma plans to officiate the renaming of the Yeoman and Storekeeper “A” School wing of the Juliet Nichols Building in a ceremony later this year.

Palmer served with distinction as a yeoman in the Coast Guard from 1951 to 1953 and worked for the 9th Coast Guard District commander in Cleveland, Ohio.

Palmer reportedly joined the Coast Guard after his college roommate was tragically killed in an automobile accident as a way to get away from how distraught he was over the loss of his friend.

“My dad said that the U.S. Coast Guard ‘made [him] a better person for the world,’” said Amy Palmer Saunders, chair of the

Arnold & Winnie Palmer Foundation. "He would be touched to know that others will be given the same opportunity to learn and grow in a space named for him, and my family and I are grateful to the Pennsylvania delegation, to members of the Coast Guard and to others who made this possible."

Located just west of the city of Petaluma, Training Center Petaluma is the Coast Guard's largest West Coast training center. The graduates are the latest chiefs, medics, storekeepers, yeoman, information system technicians, electronics technicians and operations specialists. Training Center Petaluma is also the home to the Coast Guard Leadership Development Center's Chief Petty Officer Academy.

Coast Guard Cutter Northland Returns from Gulf of Mexico Patrol

The Coast Guard 270-foot medium endurance cutter Northland lies in her berth at homeport, Coast Guard Base Portsmouth, Feb. 25, 2014. The Northland conducts search and rescue, law enforcement, homeland security, and defense operations missions in the Atlantic Ocean, Caribbean Sea, and Gulf of Mexico. *U.S. Coast Guard*

PORTSMOUTH, Va. – The Coast Guard Cutter Northland returned home March 22 to Portsmouth from a patrol in support of the Eighth Coast Guard District, the Coast Guard 5th District said in a March 23 release.

During the patrol, the crew of the Northland conducted daily law enforcement boardings and patrolled the waters for any illegal fishing boats or gear to ensure fair, safe, and sustainable practices.

The Northland crew embarked an MH-65 Dolphin helicopter aviation detachment for the patrol to assist in spotting vessels and targets of interest before launching the cutter small boats.

Prior to beginning patrol, the Northland crew underwent a training availability to test their ability to respond to a variety of shipboard scenarios, such as engine room fires and defense operations. Immediately following the inspection, the Northland crew sailed to Pensacola, Florida, where they successfully completed a biennial evaluation of shipboard helicopter operations.

Upon leaving Pensacola, the cutter patrolled the Maritime Boundary Line, between the United States and Mexico. Once on scene, the crew began fisheries enforcement, deterring illegal fishing and ensuring compliance with federal laws.

Constant surveillance led to the interdiction of one vessel illegally fishing in U.S. waters and the retrieval of miles of fishing gear intentionally left behind by foreign fishermen. The Northland's presence and enforcement of laws ensured the safety, fairness, and longevity of fisheries throughout the

Gulf of Mexico.

“I continue to be impressed with the drive and adaptability that the crew demonstrates on a daily basis,” said Cmdr. Patricia Bennett, commanding officer of Coast Guard Cutter Northland. “I am thankful for the crew’s desire for mission excellence, and also grateful for the Northland being afforded the opportunity to conduct domestic fisheries operations. It is a mission that helps ensure the safety of fishermen and helps sustain a natural marine resource with global implications. Halting illegal fishing through the combination of effective policy and enforcement actions is the best way to prevent the detrimental impact to coastal communities, nations reliant upon seafood as a primary source of protein, and the entire oceanic ecosystem.”

The Northland is a 270-foot medium-endurance cutter that routinely deploys in support of counter-drug, alien migrant interdiction, fisheries, search and rescue and homeland security missions.

**Coast Guard, CBP Stop
Suspected Human Smuggling
Venture Off West Palm Beach**

A Coast Guard Station Lake Worth Inlet law enforcement team and Customs and Border Protection Air and Marine Operations law enforcement team interdict a 29-foot vessel with two Bahamians, seven Jamaicans, two Haitians and four Dominican Republicans aboard March 17, 2021 approximately 5 miles off West Palm Beach, Florida. Some passengers were brought ashore for further investigation of potential criminal charges by Homeland Security Investigations while the remaining passengers were repatriated to the Bahamas. U.S. COAST GUARD

MIAMI – A Coast Guard Station Lake Worth Inlet law enforcement team and Customs and Border Protection Air and Marine Operations (CBP AMO) law enforcement teams interdicted a 29-foot vessel with 16 people aboard Wednesday approximately 5 miles off West Palm Beach, the Coast Guard 7th District said in a March 19 release.

Coast Guard Robert Yered arrived on scene and a crew brought all the vessel occupants: two Bahamians, seven Jamaicans, two Haitians and four Dominican Republicans, aboard the ship. Some passengers were brought ashore for further investigation of potential criminal charges by Homeland Security

Investigations. The remaining passengers were repatriated to the Bahamas Friday.

A CBP AMO aircraft notified Coast Guard Station Miami watchstanders of the suspected smuggling vessel at approximately 12:20 a.m.

“Wednesday’s case spotlights the great work done every day by Air and Marine and our DHS partners,” stated John Priddy, executive director of the AMO Southeast Region. “With our integrated operations, we get the job done and protect our homeland.”

Since Oct. 1, 2020, Coast Guard crews have interdicted 78 Bahamians, eight Jamaicans, 182 Haitians, 194 Dominican Republicans compared to fiscal year 2020, where crews interdicted 194 Bahamians, four Jamaicans, 418 Haitians and 1,117 Dominican Republicans.

Once aboard a Coast Guard cutter, all migrants receive food, water, shelter and basic medical attention. Throughout the interdiction, Coast Guard crew members were equipped with personal protective equipment to minimize potential exposure to any possible case of COVID-19. There were no migrants in these cases reported to have any COVID-19 related symptoms.

Cutter Seneca Returns Home Following 42-Day Mid-Atlantic Patrol

Coast Guard Cutter Seneca approaches the Coast Guard Cutter Angela McShan for a towing exercise in the Mid-Atlantic Ocean in March 2021. U.S. COAST GUARD

PORTSMOUTH, Va. – The crew of the Coast Guard Cutter Seneca returned to their homeport in Portsmouth on March 13 after a 42-day Mid-Atlantic patrol, the Coast Guard 5th District said in a March 19 release.

The ship's law enforcement teams boarded commercial fishing vessels from the coast of New Jersey to Florida in support of the Coast Guard's mission of protecting vital living marine resources. The Coast Guard Cutter Seneca also partnered with aircrews from Coast Guard Air Station Elizabeth City, North Carolina, to help train and maintain proficiency in shipboard helicopter operations.

The Seneca's law enforcement teams boarded over 24 U.S.-flagged fishing vessels, ensuring compliance with safety, fisheries and environmental regulations. The Seneca crew also worked with the Coast Guard Cutter Angela McShan and the Coast Guard Cutter Lawrence Lawson, two fast-response cutters

homeported in Cape May, New Jersey, by conducting joint law enforcement operations and fueling at sea evolutions.

These operations are integral to protecting the \$5.6 billion commercial fishing industry, a major economic driver throughout the East Coast, according to the release. Through fisheries enforcement operations, Seneca crews deterred illegal, unreported and unregulated fishing while standing by to answer any calls of distress to members of the commercial fishing industry, which is comprised of more than 39,000 fishermen in the United States.

“This has been a fast-paced and rewarding patrol,” said Cmdr. Matthew Rooney, commanding officer of the Seneca. “The crew did amazing work this patrol. The 30 at-sea boardings promoted safety and let the fishing fleet know the Coast Guard is out here and ready to assist if needed. Their outstanding results and positive attitudes set the standard for Coast Guard operations in the Mid-Atlantic.”

The Seneca is a 270-foot medium-endurance cutter with a crew compliment of 14 officers and 86 enlisted personnel. The cutter’s primary missions include search and rescue, living marine resources, illegal drug interdictions, counter narcotics, migrant interdictions, ensuring the safety of life at sea, and enforcing international and domestic maritime laws in both the Atlantic and Pacific oceans.

Coast Guard Commissions
Newest National Security

Cutter

Fellow Aviators pay tribute to the USCGC Stone (WMSL- 758) during the commissioning ceremony at Coast Guard Base Charleston, S.C., Mar. 19, 2021. The cutter's namesake is the late Cmdr. Elmer "Archie" Fowler Stone, who in 1917 became the Coast Guard's first aviator and, two years later, was one of two pilots to successfully make a transatlantic flight in a Navy seaplane landing in Portugal. *U.S. Coast Guard / Petty Officer 3rd Class Vincent Moreno*

NORTH CHARLESTON, S.C., – The USCGC Stone (WMSL 758) became the Coast Guard's newest national security cutter during a commissioning ceremony March 19 at Coast Guard Base Charleston, the Coast Guard Atlantic Area said in a release.

Adm. Karl Schultz, commandant of the U.S. Coast Guard, presided over the ceremony. Laura Cavallo, the grandniece of the ship's namesake and ship's sponsor, was also in attendance.

The cutter's name comes from Cmdr. Elmer "Archie" Fowler Stone, who in 1917 became the Coast Guard's first aviator and, two years later, was the pilot of the NC-4, a Navy airplane, which in 1919 was the first aircraft to accomplish a transatlantic flight, landing in Portugal.

The Stone is the ninth legend-class national security cutter in the Coast Guard's fleet. The Legend class national security cutters can execute the most challenging national security missions, including support to U.S. combatant commanders.

They are 418 feet in length, 54 feet in beam, and 4,600 long tons in displacement. They have a top speed of more than 28 knots, a range of 12,000 nautical miles, an endurance of up to 90 days, and can hold a crew of up to 150. These new cutters are replacing the high-endurance Hamilton-class cutters in service since the 1960s.

The Stone launched Oct. 4, 2019, for sea trials. Following sea trials, the crew conducted its first voyage, Operation Southern Cross, a patrol to the South Atlantic supporting counter illegal, unreported and unregulated fishing.

Taking the newly accepted cutter on its shakedown cruise, Stone's crew covered over 21,000 miles (18,250 nautical miles) over 68 days. A mutual interest in combating IUUF activities offered an opportunity to collaborate for Stone's crew. They interacted with partners in Guyana, Brazil, Uruguay and Portugal, strengthening relationships and laying the foundation for increased partnerships to counter illicit maritime activity.

Ship commissioning is the act or ceremony of placing a ship in active service.

Coast Guard Cutter Douglas Munro Returns Home from Final patrol

The Coast Guard Cutter Douglas Munro (WHEC 724) is pictured during their last Bering Sea patrol, in which the crew conducted boarding evolutions of the fishing fleet and were available to respond to search and rescue cases in March 2021. The Douglas Munro is the last operational 378-foot Secretary class cutter and will officially be decommissioned on April 24, 2021. U.S. Coast Guard courtesy photo.

KODIAK, Alaska – The crew aboard Coast Guard Cutter Douglas Munro, the service's last operational 378-foot, high endurance cutter, returned home to Kodiak, Alaska, on March 13, following a 49-day deployment in the Bering Sea, the Coast Guard 17th District said in a March 17 release.

While deployed, the crew of the Douglas Munro and its embarked MH-65 helicopter aviation detachment from Air Station Kodiak safeguarded the \$13.9 billion Alaskan fishing industry and provided search and rescue coverage in an area spanning 890,000 square miles. The crew conducted multiple fisheries boardings, ensuring compliance with commercial fishing vessel regulations that ensure crew safety and the sustainability of fish stocks.

In addition to the operational challenges the crew faced in the Bering Sea, the COVID-19 pandemic required the crew to abide by strict health protection precautions and COVID testing regimens prior to the start of their deployment. While making a logistics stop in Dutch Harbor the crew received their first doses of the COVID-19 vaccinations.

“This has been an extremely exciting and rewarding patrol as it is the end of an era for not only this cutter, but also for all the 378s that have served the Coast Guard since 1967,” said Capt. Riley Gatewood, the Douglas Munro’s commanding officer. “The legacy of Signalman First Class Douglas Munro lives on due to the hard work put forth by the many crew members who spent time away from loved ones to accomplish Coast Guard missions aboard Douglas Munro. It is a great honor and privilege to serve as Commanding Officer of the Coast Guard’s last 378-foot, high endurance cutter.”

Commissioned Sept. 27, 1971, Douglas Munro was named in honor of Signalman First Class Douglas A. Munro, the U.S. Coast Guard’s only Medal of Honor recipient, killed during the Guadalcanal Campaign of World War II on that same date in 1942. The ship is scheduled to be decommissioned later this year. Douglas Munro’s legacy will continue with the National Security Class Cutter, Coast Guard Cutter Munro, homeported in Alameda, California.
