NEW LONDON, Conn. – Cadets from the Class of 2022 received their first duty assignments during Billet Night at the U.S. Coast Guard Academy, March 3, the Academy said.

One of the most anticipated events of the 200-week cadet program, Billet Night is a night of energy and excitement as the cadets are less than three months away from commencement when they commission as officers in the U.S. Coast Guard on May 18, 2022.

This year's class is made up of 257 cadets, including nine international cadets. After graduation, more than 200 newly commissioned officers will report to cutters as near as Coast

Guard Cutter Eagle homeported near the Academy in New London, Connecticut, to the Coast Guard Cutter Sequoia, homeported nearly 8,000 miles away in Apra Harbor, Guam.

Twenty others will report to flight school in Pensacola, Florida, to begin pilot training before reporting to Coast Guard Air Stations across the country.

Cadets will engage in a variety of Coast Guard operations at their new units upon graduation. Coast Guard units throughout the nation routinely conduct domestic missions as well as joint exercises with partner nations in which the Coast Guard assists fellow coast guards and navies to adapt or expand their maritime security capabilities.

The remaining graduates will report to various shore units, including the first graduates of the Academy's Cyber Systems program. The newly established Cyber Systems degree provides graduates with the skills and ability to defend cyberspace, enable operations, and protect critical maritime infrastructure.

The Coast Guard protects America's vast Maritime Transportation System as a ready, relevant, and responsive force engaging in defense operations, maritime law enforcement, search and rescue, marine safety, and environmental protection operations.

"Every day our graduates are leading vital missions across the globe," said Rear Adm. Bill Kelly, Coast Guard Academy superintendent. "I'm excited that the members of the class of 2022 will soon take their places in the Coast Guard fleet and join our service's efforts to address the nation's complex maritime challenges."

Founded in 1876, the Coast Guard Academy is one of the five U.S. service academies that emphasizes leadership, physical fitness and professional development leading to a guaranteed job upon graduation as a commissioned officer in the U.S.
