Commandant Adm. Karl Schultz made the announcement during his Feb. 24 annual "State of the Coast Guard Address" before an audience at Coast Guard Air Station Clearwater, Florida.

In a Feb. 25 message to the Coast Guard, Shultz further amplified the announcement, saying, "Cyberspace is an operational domain continuously evolving while growing in importance and complexity. Operations in cyberspace require a

professional and skilled workforce [military and civilian]. Competition to recruit, retain, and grow cyber talent is constant. A dedicated CMS enlisted rating with accessions beginning at the E-5 paygrade, as is done with the diver rating and an accompanying CYBR [cyber] specialty, will best provide a trained, proficient, and professional workforce to enable and conduct cyberspace operations.

“Members of the CMS rating and CYBR specialty will have the opportunity to serve in a broad range of missions,” he said. “The Coast Guard’s cyber program plays a critical role operating a secure cyberspace for the Service, protecting the Marine Transportation System against malicious actors seeking to identify new ways to exploit cyberspace, and countering adversaries’ intent on disrupting Coast Guard operations or negatively impacting national interests. Members of the CMS rating and CYBR specialty will continue to serve in critical positions within [Coast Guard] Cyber Command, U.S. Cyber Command, DHS Cybersecurity and Infrastructure Security Agency areas, districts and sectors and elsewhere as required.
