

# Coast Guard Set to Retire Last High-Endurance Cutter, Commandant Says

Members from Coast Guard Cutter Douglas Munro stand in formation on the back of the cutter, July 24, 2020. The cutter's hull day, July 24, correlates with its hull number, 724. U.S. Coast Guard

WASHINGTON –The Coast Guard will retire USCGC Douglas Munro at the end of March, concluding 49 years of Coast Guard service for the cutter and 54 years for the Secretary-class 378-Foot cutters.

In a March 4 message to the Coast Guard, Commandant Adm. Karl L. Schultz said that on March 31 the Douglas Munro would be placed in In-Commission Special Status, which begins the decommissioning process.

The 12 Secretary-class cutters were the mainstay of the Coast

Guard's ocean-going fleet until their replacement began 13 years ago by the new Legend-class national security cutters. Some deployed with carrier strike groups and operated in the Persian Gulf. They had an anti-submarine warfare (ASW) capability until 1992, when it was removed. The same year some were armed with Harpoon anti-ship missiles. The original 5-inch gun mounts were replaced in the late 1980s to mid-1990s with Mk75 76mm guns.

The Douglas Munro, built by Avondale Shipyards in Louisiana, was commissioned on Sept. 27, 1971. It was named Munro until the Coast Guard's new Legend-class national security cutter USCGC Munro was built.

As the high-endurance cutters were decommissioned, they were transferred to foreign navies or coast guards. Hamilton, Dallas and Boutwell have been transferred to the Philippines; Chase and Gallatin to Nigeria; Jarvis and Rush to Bangladesh; Morgenthau to Vietnam; Sherman to Sri Lanka, and Mellon to Bahrain. John Midgette is in Seattle being prepared for delivery to Vietnam. Douglas Munro likely will serve in a foreign navy as well, though transfer has not yet been announced.
