Ford Carrier Strike Group (GRFCSG) is deployed in the Atlantic Ocean, conducting training and operations alongside NATO Allies and partners. *U.S. NAVY / Mass Communication Specialist 2nd Class Jackson Adkins*

NORFOLK, Va. – The Gerald R. Ford Carrier Strike Group and ships from three North Atlantic Treaty Organization (NATO) countries completed a three-week exercise orchestrated by Carrier Strike Group (CSG) 4 called Task Force Exercise (TFEX) 23-2 from Oct. 5-23, Carrier Strike Group Four (CSG-4)Public Affairs said in an Oct. 24 release.

During TFEX 23-2, USS Bulkeley (DDG 84) and James E. Williams (DDG 95) joined exercise events to prepare for independent-

duty deployments later this year. USS Bainbridge (DDG 96) and USS Mason (DDG 87) supported CSG-4 throughout the exercise by augmenting several training scenarios.

The exercise occurred concurrently with the beginning of Ford Strike Group's inaugural deployment.

Rear Adm. Jeffrey "Caesar" Czerewko, commander, CSG-4, reiterated the significance of the training exercise, especially the unique interoperability opportunities alongside the Ford Strike Group and allies.

"Carrier Strike Group 4 develops scenarios in an agile and informed manner to best prepare our warfighters for anything they may encounter while deployed at-sea," said Czerewko. "The Task Force Exercise with the Gerald R. Ford Carrier Strike Group and coalition partners provided an unmatched opportunity to integrate together in the Atlantic. The scenarios offered all participants a building block approach to planning and executing missions culminating in successful demonstrations of lethal performance in a high-end fight."

The three participating countries outside the United States were Canada, Germany and Spain. Their ships included: ESPS Alvaro De Bazan (F 101), HMCS Fredericton (FFH 337), and FGS Hessen (F 221).

The scenarios offered during the exercise included dynamic maneuvers, simulated strait transits, flight operations, weapons systems testing, communication drills, and cyber response.

"All entities within Carrier Strike Group 12 benefited tremendously from this CSG-4-led exercise," said Rear Adm. Greg Huffman, commander, CSG-12. "As the Gerald R. Ford Carrier Strike Group continues on its first deployment, the relationships built and capabilities refined with our NATO

partners will continue to enhance our flexibility while operating forward.”

The Ford Strike Group includes: Carrier Strike Group (CSG) 12, Carrier Air Wing (CVW) 8, Destroyer Squadron (DESRON) 2, USS Gerald R. Ford (CVN 78), USS Normandy (CG 60), USS Ramage (DDG 61), USS McFaul (DDG 74), and USS Thomas Hudner (DD 116).

CSG-4 is a team that consists of experienced Sailors, Marines, government civilians and reservists, who mentor, train and assess U.S. 2nd Fleet combat forces to forward-deploy in support and defense of national interests. CSG-4’s experts shape the readiness of U.S. 2nd Fleet Carrier Strike Groups (CSG), Expeditionary Strike Groups (ESG), Amphibious Readiness Groups (ARG) and independent deploying ships through live, at-sea and synthetic training, as well as academic instruction. Along with its subordinate commands, Tactical Training Group Atlantic (TTGL) and Expeditionary Warfare Training Group Atlantic (EWTGL), CSG-4 prepares every Atlantic-based CSG, ARG and independent deployer for sustained forward-deployed high-tempo operations.
