PENSACOLA, Fla. – The crew of Coast Guard Cutter Diligence returned to their homeport of Pensacola, Florida, Feb. 20 following a 60-day counter-drug patrol in Eastern Pacific Ocean, the Coast Guard 8th District said Feb. 25.

Partnering with three other Coast Guard cutters, Diligence interdicted three suspected drug-smuggling vessels resulting in the apprehension of 12 detainees and the interdiction of more than 4,321 pounds of cocaine with a street value of approximately $82 million.

“Diligence’s crew demonstrated professionalism, resilience and perseverance while conducting complex high-speed boat pursuits in the drug transit zone,” said Cmdr. Jared Trusz, Diligence’s commanding officer. “I am honored to serve with and proud of the crew’s superlative efforts that directly support the United States national security interests.”

Numerous U.S. agencies from the Departments of Defense, Justice and Homeland Security cooperated in the effort to combat transnational organized crime. The Coast Guard, Navy, Customs and Border Protection, FBI, Drug Enforcement Administration and Immigration and Customs Enforcement, along with allied and international partner agencies, play a role in counter-drug operations.

The fight against drug cartels in the Eastern Pacific Ocean requires unity of effort in all phases from detection, monitoring and interdictions, to criminal prosecutions by international partners and U.S. Attorneys’ Offices in districts across the nation. The law enforcement phase of counter-smuggling operations in the Eastern Pacific Ocean is conducted under the authority of the Coast Guard 11th District, headquartered in Alameda, California. The interdictions, including the actual boardings, are led and conducted by members of the U.S. Coast Guard.

The Diligence is a 210-foot medium-endurance cutter homeported in Pensacola with 78 crewmembers. The cutter’s primary missions are counter-drug operations, migrant interdiction, enforcing federal fishery laws and search and rescue in support of Coast Guard operations throughout the Western Hemisphere.
