ARLINGTON, Va. – The mark-up of the House Armed Services Committee’s TACAIR and Land Forces subcommittee for the 2025 National Defense Authorization Act would assign the newest F/A-18E/F Super Hornet strike fighters to the Navy Reserve.

The mark-up would “require the Secretary of the Navy to assign only to the Navy Reserve all F/A-18E/F Super Hornet aircraft procured using funds appropriated for the Navy for fiscal year 2022 or fiscal year 2023,” the text of the mark-up said.

“The Secretary of the Navy shall ensure that all covered [F/A-18] aircraft are (1) provided only to the Navy Reserve; and (2) used only to recapitalize and maintain, within the Navy Reserve (A) a deployable tactical strike-fighter capability; and (B) a threat representative adversary support capability that may be used in support of training activities of the Department of Defense,” the document said.

The Super Hornets would be Block III versions. The only Navy Reserve squadron currently equipped with Super Hornets – Fighter Composite Squadron 12 – operates older versions of the F/A-18E.

The subcommittee’s mark-up also approved multiyear procurement authority beginning in 2025 for Marine Corps’ CH-53K King Stallion heavy lift helicopters and the T408 engines that power them.
