HII Breaks Ground on New Submarine Facility at Newport News Shipbuilding

NEWPORT NEWS, Va., Feb. 09, 2023 (GLOBE NEWSWIRE) – Global all-domain defense partner HII (NYSE: HII) recently broke ground on a new project that will support nuclear submarine construction at its Newport News Shipbuilding division.

The Multi-Class Submarine Production Facility is one of three new facilities, enabling NNS to further support the construction and delivery of *Columbia*- and *Virginia*-class submarines.

“The Navy has made it clear how important both the *Columbia*-

and *Virginia*-class submarine programs are to our nation's defense," said Brandi Smith, NNS vice president of *Columbia*-class submarine construction. "The Multi-Class Submarine Production Facility is an intentional investment to accelerate our efforts to deliver the highest quality submarines our Navy needs."

Wednesday's groundbreaking marked the first phase of construction. Work on two additional facilities is expected to begin later this year. The Multi-Class Submarine Production Facility is designed to be adaptable, allowing NNS to support both *Columbia*- and *Virginia*-class construction.

The Multi-Class Submarine Production Facility is funded jointly by the Navy and HII, and is part of \$1.9 billion in capital investments HII is making at NNS between 2016 and 2025. NNS is one of only two shipyards capable of designing and building nuclear-powered submarines for the U.S. Navy.

The Navy has identified the *Columbia*-class as its top acquisition priority. Twelve *Columbia*-class boats will replace the fleet of *Ohio*-class nuclear ballistic submarines and take over the role of the nation's sea-based strategic deterrent; these submarines will provide the most survivable leg of the nation's strategic triad.

NNS is a major contractor and shipbuilding partner in the *Columbia*-class program, designing, constructing and delivering six module sections per submarine under contract to General Dynamics Electric Boat.

Under a separate teaming agreement with Electric Boat, NNS is also building *Virginia*-class submarines for the Navy. The advanced capabilities of *Virginia*-class submarines increase firepower, maneuverability and stealth.

In November, NNS [celebrated the keel authentication](#) for *Arkansas* (SSN 800), the 27th *Virginia*-class fast attack submarine, as the shipyard continues to invest in its

workforce and facilities to make steady progress on delivering these important assets to the Navy.
