

HII is Awarded Naval Surface Warfare Center's Integrated Training Systems Contract

[Release from HII](#)

MCLEAN, Va. (July 19, 2023) – HII's (NYSE: HII) Mission Technologies division has been awarded a \$41 million contract to provide integrated training systems installation and sustainment (ITSIS) for the U.S. Navy.

The task order was awarded under the Naval Sea Systems Command's (NAVSEA) SeaPort Next Generation contract to support the Naval Surface Warfare Center Dahlgren Division Dam Neck Activity (NSWCDD DNA) and has a one-year base period plus one six-month extension.

The work expands upon HII's existing support of training systems to the customer.

“HII is excited to continue our partnership with NAVSEA and deliver shipboard and shore-site integrated training system hardware and software installation and life-cycle sustainment services,” said Ryan Norris, president of Mission Technologies’ Fleet Sustainment business group. “We have built a strong team with extensive experience installing, configuring, maintaining, modernizing and securing Navy networks, tactical systems and C6ISR systems. We look forward to supporting the systems that are critical to training naval warfighters and improving fleet readiness.”

With more than 30 years of experience delivering shipboard and shore-based installation and sustainment services to the U.S. Navy, HII’s team will provide hardware and software upgrades, system maintenance, training system integration, curriculum development and fleet training, cybersecurity, lab support, integrated logistics support, configuration management and life-cycle sustainment of integrated training systems.
