

HII Launches Amphibious Transport Dock Harrisburg (LPD 30)

HII's Ingalls Shipbuilding division successfully launched the first LPD Flight II, San Antonio-class amphibious transport dock ship Harrisburg (LPD 30) on Saturday, October 5, 2024. (HII)

From HII, Oct. 8, 2024

PASCAGOULA, Miss., Oct. 08, 2024 (GLOBE NEWSWIRE) – HII's (NYSE:HII) Ingalls Shipbuilding division successfully launched on Saturday the first LPD Flight II, *San Antonio-class* amphibious transport dock ship *Harrisburg* (LPD 30), marking one of the first major milestones in the ship's journey towards operational readiness.

The Ingalls team translated *Harrisburg* from land to the company's floating dry dock using translation railcars to support the ship's movement across the pier. While in the dry dock, the Ingalls team completed final prep work needed for launch.

"We view this launch as a significant step toward fielding capability to our U.S. Navy and Marine Corps partners, and a reminder of the importance of supporting national security," said Ingalls Shipbuilding President Kari Wilkinson. "As shipbuilders, we are dedicated to this mission."

The launch of LPD 30 follows the recent announcement of the amphibious multi-ship procurement contract for the construction of three *San Antonio*-class (LPD 17) amphibious ships [LPD 33-35] and a contract modification for the next *America*-class (LHA 6) large-deck amphibious ship [LHA 10].

Ingalls currently has two Flight II LPDs under construction including *Harrisburg* (LPD 30) and *Pittsburgh* (LPD 31). Pre-construction activities are currently underway for the construction of *Philadelphia* (LPD 32), the 16th ship in the *San Antonio*-class.
