

June 13 U.S. Central Command Update

From U.S. Central Command, June 13, 2024

TAMPA, Fla. – In the past 24 hours, U.S. Central Command (USCENTCOM) forces successfully destroyed one air defense sensor in a Houthi controlled area of Yemen.

Then, USCENTCOM forces successfully destroyed one Iranian-backed Houthi uncrewed surface vessel (USV) and two Houthi patrol boats in the Red Sea.

Separately, USCENTCOM forces successfully destroyed one uncrewed aerial system (UAS) launched from a Houthi controlled area of Yemen over the Red Sea.

It was determined these systems presented an imminent threat to U.S., coalition forces, and merchant vessels in the region. This action was taken to protect freedom of navigation and make international waters safer and more secure for U.S., coalition, and merchant vessels.

Additionally, Iranian-backed Houthis launched two anti-ship ballistic missiles (ASBM) from a Houthi controlled area of Yemen into the Red Sea. There were no injuries or significant damage reported by U.S., coalition, or merchant vessels.

Later, M/V Verbena, a Palauan flagged, Ukrainian owned, Polish operated bulk cargo carrier, was struck for a second time in 24 hours, by one ASBM launched from Houthi controlled area of Yemen into the Gulf of Aden.

This continued malign and reckless behavior by the Iranian-backed Houthis threatens regional stability and endangers the lives of mariners across the Red Sea and Gulf of Aden. The Houthis claim to be acting on behalf of Palestinians in Gaza

and yet they are targeting and threatening the lives of third country nationals who have nothing to do with the conflict in Gaza. CENTCOM will continue to act with partners to hold the Houthis accountable and degrade their military capabilities.

Houthis Strike M/V Verbena in Gulf of Aden, USS Philippine Sea Medically Evacuates Injured Mariner

TAMPA, Fla. – Today the Iranian-backed Houthis launched two anti-ship cruise missiles (ASCM) into the Gulf of Aden. Both missiles struck M/V Verbena, a Palauan-flagged, Ukrainian-owned, Polish-operated bulk cargo carrier. M/V Verbena most recently docked in Malaysia and was enroute to Italy carrying wood construction material.

M/V Verbena reported damage and subsequent fires on board. The crew continues to fight the fire. One civilian mariner was severely injured during the attack.

Aircraft from USS Philippine Sea (CG 58) medically evacuated the injured mariner to a partner force ship nearby for medical attention.

This continued reckless behavior by the Iranian-backed Houthis threatens regional stability and endangers the lives of mariners across the Red Sea and Gulf of Aden. The Houthis claim to be acting on behalf of Palestinians in Gaza and yet they are targeting and threatening the lives of third country nationals who have nothing to do with the conflict in Gaza. The ongoing threat to the ability to safely transit the region caused by the Houthis makes it harder to deliver critical assistance to the people of Yemen as well as to Gaza. U.S. CENTCOM will continue to act with partners to hold the Houthis accountable and degrade their military capabilities.
