L3 OceanServer Awarded Contract for Iver3 UUVs

FALL RIVER, Mass. – L3 OceanServer has been granted a five-year General Services Administration (GSA) schedule for its Iver3 unmanned underwater vehicles (UUVs), the company said in a Jan. 31 release. This GSA schedule gives registered government agencies a simple path to procure Iver3 UUVs using pre-established pricing and terms and conditions. A contract was awarded from the GSA schedule for two Iver3 UUVs and associated training, effective Dec. 19, 2018.

“L3 OceanServer is pleased to receive this GSA schedule and contract award. GSA schedules provide shorter procurement cycles for federal purchases to streamline ordering processes,” said Daryl Slocum, general manager of L3 OceanServer. “This award will allow us to develop existing customer relationships and build new ones.”

The Iver UUV is a commercial-off-the-shelf product built with warfighter-driven attributes. It features longer runtimes and precise navigational accuracy, enabling long ingress/egress missions that provide greater standoff distances and increased mission safety. L3 OceanServer has a proud history of working with various government agencies, including the U.S Marine Corps and the U.S. Navy.

L3 OceanServer is part of the Integrated Maritime Systems sector within L3’s Communications and Networked Systems business segment. Since its inception in 2003, L3 OceanServer has sold more than 300 autonomous underwater vehicles worldwide.
