

Marine Corps Receives First of Two C-40A Transport Aircraft

The Marine Corps' first C-40A aircraft, assigned to Marine Transport Squadron (VMR) 1, Marine Air Group 41, 4th Marine Air Wing, Marine Forces Reserve, lands at Naval Air Station Joint Reserve Base Fort Worth Texas, May 19, 2023. VMR 1 will use these aircraft to support the Marine Corps and joint services with assault support in the form of air logistics, providing time-, place- or mission-sensitive, long-range, multipurpose air transport and critical logistical support of key personnel and cargo between and within combatant commands and theaters of war. ARLINGTON, Va. – The U.S. Marine Corps has taken delivery of its first Boeing C-40A Clipper transport aircraft, the first

of two that will be operated by the Marine Forces Reserve.

The C-40A arrived at Naval Air Station Joint Reserve Base Fort Worth Texas on May 19, the Marine Forces Reserve said in a release. It will be operated by Marine Transport Squadron One (VMR-1), a unit of Marine Aircraft Group 41, 4th Marine Air Wing.

“VMR-1 will use these aircraft to support the Marine Corps and joint services with assault support in the form of air logistics, providing time-, place- or mission-sensitive, long-range, multipurpose air transport and critical logistical support of key personnel and cargo between and within combatant commands and theaters of war,” the release said.

VMR-1 flew two C-9B Skytrain II aircraft from Joint Base Andrews-NAF Washington, Maryland, until 2017, when the squadron moved to NAS-JRB Fort Worth to provide crews to share C-40A Clipper transports with Navy Fleet Logistics Support Squadron 59. According to the 2022 Marine Corps Aviation Plan, VMR-1 will move to Marine Corps Air Station Kaneohe Bay, Hawaii, by fiscal 2024 to replace the two C-20G Gulfstream IV transports there that support the Indo-Pacific Command.

The two Marine C-40As were not new-build aircraft but were converted from two used Boeing 737 airliners. The Navy Air Reserve operates 17 C-40As – the first of which was delivered in 2001 – in six fleet logistics support squadrons for Navy-unique fleet-essential airlift missions.
