Mercury Systems Receives $2.8M Order for Modular Rackmount Servers for Naval Weapon System Application

ANDOVER, Mass. – Mercury Systems Inc. has received a $2.8 million order from a leading defense prime contractor for modular rackmount servers to be used in a naval weapon system, the company said in a March 7 release. The order was booked in the company's fiscal 2019 third quarter and is expected to be shipped over the next several quarters.

Currently deployed on over 40 naval programs, Mercury's EnterpriseSeries rackmount servers are designed for mission-critical applications.

"Performance, availability and versatility are extremely important to our customer," said Scott Orton, vice president and general manager of Mercury's Trusted Mission Solutions group. "Designed to meet both current and future deployment needs, our composable servers not only minimize cost but also offer long-term sustainability."
