

Navy Orders Ninth John Lewis-Class Fleet Replenishment Oiler

ARLINGTON, Va. – The U.S. Navy has ordered construction of the ninth fleet replenishment oiler of the new John Lewis class for the Military Sealift Command.

The Naval Sea Systems Command awarded to General Dynamics National Steel and Shipbuilding Co., San Diego, California, a \$736 million contract modification for the detail design and construction of T-AO 213. Work is expected to be completed by March 2028, the Department of Defense said in a May 22 announcement.

NASSCO delivered the lead ship of the class, USNS John Lewis (T-AO 205), in 2022, the first of six ordered under a 2016

contract. Two more were ordered under a 2022 contract modification, with an option for a third. That option was exercised with the contract award T-AO 213.

Five ships of the class currently are under construction: Harvey Milk (T-AO 206), which will be delivered this year; Earl Warren (T-AO 207); Robert F. Kennedy (T-AO 208); Lucy Stone (T-AO 209); and Sojourner Truth (T-AO 210). Future ships include Thurgood Marshall (T-AO 211) and Ruth Bader Ginsburg (T-AO 212). The Navy plans to procure a total of 20 ships of the class.

The John Lewis class is replacing the Henry J. Kaiser class of fleet replenishment oilers. The new ships can carry 57,000 barrels of oil as well as some dry cargo and frozen stores. They can operate at 20 knots.
