Navy Secretary Names Independence-Variant LCS After Capital of Maine

Washington – Navy Secretary Richard V. Spencer announced on Jan. 31 that the next Independence-variant Littoral Combat Ship will be named USS Augusta (LCS 34), his public affairs officer said in a release.

The future USS Augusta (LCS 34) is named in honor of the capital city of Maine and is the sixth vessel to bear the name Augusta.

"It is an honor to name the next Independence variant LCS after the city Augusta," Spencer said. "From the earliest days of the American Revolution to every conflict since, the citizens of Maine have been an important part of the Navy and Marine Corps team. I am pleased that a future ship will carry on that tradition of service by bearing the name and history of their great capital city."

The future USS Augusta will be built by Austal USA in Mobile, Alabama. This ship will be 419 feet long with a beam length of 104 feet and be capable of operating at speeds in excess of 40 knots.

The Navy has accepted delivery of 17 littoral combat ships (LCSs). Including the recent contract modifications, a total of 35 LCSs have been procured with 11 ships under construction (LCS 17, 19-26) and seven more ships in pre-construction ships (LCS 29-32, 34, 36 and 38).

The LCS is a highly maneuverable, lethal and adaptable ship, designed to support focused mine countermeasures, antisubmarine warfare and surface warfare missions. LCS integrates new technology and capability to affordably support

current and future mission capability from deep water to the littorals.
