

# Navy to Pursue a Block Buy of 4 Amphibious Warfare Ships

August 15, 2024

By Richard R. Burgess, Senior Editor

WASHINGTON – The secretary of the Navy has notified Congressional leaders that the Navy will pursue a block buy of four amphibious warfare ships – one America-class amphibious assault ship (LHA) and three San Antonio-class amphibious transport dock ships (LPDs) – through fiscal year (FY) 2029.

The move potentially would save U.S. taxpayers “nearly \$1 billion through additional efficiencies,” said U.S. Senator Roger Wicker, R-Mississippi, the highest-ranking Republican on the Senate Armed Services Committee, who released the following statement in response:

“Today is a great day for American shipbuilding and our Navy’s ability to deter China in the years ahead,” Wicker said. “As I have long noted – including in my recent “Peace Through

Strength” report – the multi-ship buy of warships is a cost-effective way to provide stability for the industrial base on key shipbuilding programs. I look forward to seeing these contracts through to their execution, and I believe that additional benefits could be obtained if we increase funding for material procurement in bulk.”

Specifically, the block-buy would encompass the following ships:

- LPD 33 in FY25
  
- LPD 34 in FY27
  
- LHA 10 in FY27
  
- LPD 35 in FY29

Paul Roden, chairman of the Amphibious Warfare Industrial Base Council, issued the following statement regarding the block-buy decision:

“Today is a historic day for the amphibious warship industrial base. Our suppliers have been advocating for a multi-ship buy for years. So, we are thrilled to see lawmakers, the Navy and Marine-Corps listen to our concerns and reach this deal, which will provide the predictable funding that our suppliers urgently need. Not only will this block buy save the taxpayers nearly \$1 billion, but it will provide over 650 companies across 39 states with the stability we need to invest in our skilled workforce, get ahead of inflation and ensure on time deliveries. The companies of the amphibious warship industrial base are extremely proud of their contributions to our national security and will deliver the highest quality parts and services for these future amphibious

warships.”

The three LPDs would be built in the Block II configuration, which features the Raytheon-built SPY-6(V)2 Enterprise Air-Search Radar.

The four ships in the procurement would be built at the HII Ingalls Shipbuilding shipyard in Pascagoula, Mississippi.
