

Raytheon Technologies awarded \$320 million for StormBreaker smart weapon

[Release from Raytheon Technologies](#)

TUCSON, Ariz., (March 23, 2023) – The U.S. Air Force awarded Raytheon Technologies a \$320 million contract to produce and deliver 1500 StormBreaker® smart weapons, which are air-to-surface, network enabled weapons that can engage moving targets in all weather conditions using its multi-effects warhead and tri-mode seeker.

“Having StormBreaker in the warfighter’s arsenal provides unprecedented capability against moving targets, regardless of conditions,” said Paul Ferraro, president of Air Power at Raytheon Missiles & Defense. “It also expands our production line and reinforces our commitment of ensuring the warfighter has the next-level munitions they need to safely and

successfully accomplish the mission.”

StormBreaker is fielded on the F-15E Strike Eagle with testing underway on the F-35B and F/A-18; between the three platforms, StormBreaker has had hundreds of successful operational test shots to date.
