ARLINGTON, Va. – Raytheon Technologies announced today June 7 it will establish its global headquarters in Arlington, Virginia, just outside of Washington, D.C., a move similar to the one recently announced by Boeing.

The location increases agility in supporting U.S. government and commercial aerospace customers and serves to reinforce partnerships that will progress innovative technologies to advance the industry, Raytheon said in a press release, adding that Washington, D.C., serves as a convenient travel hub for the company's global customers and employees.

The new global headquarters office will be in Arlington's Rosslyn neighborhood alongside the Raytheon Intelligence & Space business. Each of the company's four business units

currently have operations in Virginia, the company said, and it will maintain its U.S. presence, which includes 600 facilities across 44 states and territories.

Raytheon Technologies said it has not accepted or sought any financial incentives from any state or municipality to support the establishment of the global headquarters office in Virginia.
