

# SAIC Wins \$49.5M U.S. Navy Contract for Saudi C4ISR Upgrades, Refurbishment

U.S. Marines with 2nd Battalion, 7th Marines assigned to the Special Purpose Marine Air-Ground Task Force-Crisis Response-Central Command (SPMAGTF-CR-CC) 19.2, conduct raid rehearsals with the Royal Saudi Naval Forces (RSNF) during Nautical Defender (ND) 20. SAIC will continue to provide C4ISR support services to the RSNF under a new task order. U.S. Marine Corps / Lance Cpl. Sahara Luna

MCLEAN, Va. – The U.S. Navy awarded Science Applications International Corp. a \$49.5 million single-award task order to continue to provide the Royal Saudi Naval Forces support services for command, control, communications, computers, and intelligence, surveillance and reconnaissance (C4ISR) upgrade and refurbishment, the company said in an Oct. 12 release. The work will take place in the Kingdom of Saudi Arabia.

Under the cost-plus fixed-fee task order, awarded as part of the SeaPort-NxG contract, SAIC will leverage repeatable solutions such as engineering, design and integration, integrated product support and sustainment capabilities on critical networks. These networks fulfill the Naval Information Warfare Systems Command's requirement for Program Executive Office C4I International Integration Program Office (PMW 740) Royal Saudi Naval Forces (RSNF) In-Kingdom of Saudi Arabia (KSA) Support Services.

"For more than 40 years, SAIC has supported the Navy's mission to help maintain the Royal Saudi Naval Forces' C4ISR capability modernization, engineering and logistics," said Jim Scanlon, SAIC executive vice president and general manager of the Defense Systems Group. "As a leader in technology integration, SAIC is excited to continue its assistance to the

Navy as it continues to build this strategic partnership with the Kingdom of Saudi Arabia.”

SAIC will deliver solutions and services to include program management, systems engineering and integration, maintenance engineering, and integrated logistics for the modernization and refurbishment of RSNF systems. These services are enabled by SAIC’s legacy of support to RSNF, and SAIC’s investments in digital engineering and end-to-end logistics and supply chain solutions.

The prime contract has a five-year base period of performance.
