

Sev1Tech Awarded \$49M U.S. Navy SeaPort NxG Contract

Support for NIWC Atlantic's Expeditionary Enterprise Systems and Services (E2S2) Divisions will enable IT modernization, system efficiency and force readiness

[Release From Sev1Tech](#)

WOODBIDGE, Va., October 15, 2025 – Sev1Tech, a leader in providing information

technology (IT), engineering, program management, C5ISR and cybersecurity systems

integration and support services, was awarded a \$49 million contract under SeaPort NxG by the U.S. Navy's Naval Information Warfare Center Atlantic.

Sev1Tech will provide full system lifecycle support including cyber engineering, network operations and security support services for NIWC Atlantic's Expeditionary Enterprise Systems and Services (E2S2) Division.

NIWC Atlantic delivers integrated information warfare solutions across all warfighting domains, safeguarding national security and empowering the Fleet and warfighter to succeed in today's dynamic information warfare battlespace.

Sev1Tech's Maritime Division will provide C4ISR, Cyber and IT systems and engineering

services to meet the information warfare needs of the U.S. Marine Corps. Sev1Tech will support the rapid development, delivery and operations of critical cloud and local infrastructure services, manpower systems, logistic and network implementation, monitoring, and sensor-based services to Garrison and forward-deployed units. These capabilities

will significantly enhance warfighter operational readiness, ensuring they have the advanced technology and support necessary to maintain information superiority and achieve mission success.

“Sev1Tech has proudly supported NIWC for over 20 years with reliable, mission-ready

solutions,” said Joe Re, Maritime Division General Manager at Sev1Tech. “The cyber-secure

systems and networks we support will enable naval information warfare superiority and drive modernization of enterprise infrastructure, cloud architectures and application migration across expeditionary systems and services.”

Expanding Sev1Tech’s footprint in Charleston, South Carolina, the contract will equip NIWC Atlantic with a strategic advantage in challenging CONUS and OCONUS mission environments. The contract includes one base year with four option years.
