

State Dept. Approves Possible Sale of JASSM-ER Missiles to Australia

Maj. Jacob Rohrbach, a pilot assigned to the 40th Flight Test Squadron at Eglin Air Force Base, Florida, releases the first Joint Air-to-Surface Standoff Missile – Extended Range from an F-16 over the Gulf of Mexico on Sept. 19, 2018. *U.S. AIR FORCE / Master Sgt. Michael Jackson*

WASHINGTON – The State Department has approved a possible Foreign Military Sale to the government of Australia of Joint Air-to-Surface Standoff Missiles – Extended Range (JASSM ER) and related equipment for an estimated cost of \$235 million, the Defense Security Cooperation Agency said July 21.

Australia has requested 80 JASSM ERs (AGM-158B with telemetry kits and/or AGM-158B-2 configurations).

“Also included are missile containers and support equipment; JASSM training missiles; weapon system support; spare parts, consumables, accessories, and repair/return support;

integration and test support and equipment; personnel training; software delivery and support; classified and unclassified publications and technical documentation; transportation; U.S. government and contractor engineering, technical and logistics support services, studies and surveys; and other related elements of logistical and program support," the release said.

"The proposed sale will improve Australia's capability to meet current and future threats by providing advanced, long-range strike systems for employment from Royal Australian Air Force air platforms including, but not limited to, the F/A-18F Super Hornet and F-35A Lightning II," the announcement said.

The principal contractor will be Lockheed Martin, Orlando, Florida.
