

# Textron Aviation Defense Awarded Five-Year Sustaining Engineering and Program Management Contract for Beechcraft T-6 Texan II Fleet

Textron Aviation Defense continues to support sustainment of more than 700 Beechcraft T-6 Texan II aircraft under a renewed five-year SEPM contract

From Textron Aviation Defense Inc.

WICHITA, Kan. (Apr. 13, 2026) – [Textron Aviation Defense](#) LLC, a [Textron Inc.](#) (NYSE: TXT) company, today announced that it has been awarded a five-year U.S. government contract valued at over \$150,000,000 to provide Sustaining Engineering and

Program Management (SEPM) services for the fleet of U.S. Air Force, Navy and Army T-6A, T-6B and T-6D aircraft.

First awarded in 2021, the action extends systems engineering and program management services for an additional five years, covering sustaining and systems engineering, program management and support for maintenance, repairs, modifications and integrity programs. The modification brings the total cumulative face value of the contract to \$510,000,000 ceiling, from \$240,000,000 ceiling. Work will be performed in Wichita, Kansas.

This follow-on SEPM contract reflects the U.S. Government T-6 Joint Program Office's continued confidence in our team and our ability to keep the T-6 Texan II fleet mission-ready, Travis Tyler, president and CEO, Textron Aviation Defense

"This follow-on SEPM contract reflects the U.S. Government T-6 Joint Program Office's continued confidence in our team and our ability to keep the T-6 Texan II fleet mission-ready," said Travis Tyler, president and CEO, Textron Aviation Defense. "Our focus remains on sustaining aircraft availability and supporting our customers as they train the next generation of military pilots."

### **About the Beechcraft T-6 Texan II**

The Beechcraft T-6 Texan II is the world's premier military flight trainer. Backed by nearly 100 years of experience delivering more than 255,000 aircraft worldwide, the Texan II's low acquisition, operating and sustainment costs enable global air forces to fast-track pilot production. With an installed base that more than quadruples its closest competitor, the family of Beechcraft T-6 Texan II aircraft has been the world's number one integrated training system (ITS) for more than 20 years. The Texan II capitalizes on an active production line with an industry-leading Manufacturing

Readiness Level (MRL) rating of 10 as well as a proven supply chain.
