

Yemeni Partners Successfully Interdict Iranian Weapons Shipment Bound for Houthis

[From U.S. Central Command, July 16, 2025](#)

TAMPA, Fla. – Congratulations to the Yemeni National Resistance Forces (NRF), led by Gen. Tareq Saleh, for the largest seizure of Iranian advanced conventional weapons in their history.

The NRF intercepted and seized over 750 tons of munitions and hardware to include hundreds of advanced cruise, anti-ship, and anti-aircraft missiles, warheads and seekers, components as well as hundreds of drone engines, air defense equipment, radar systems, and communications equipment. According to the NRF, there were manuals in Farsi and many of the systems were manufactured by a company affiliated with the Iranian Ministry of Defense that is sanctioned by the United States. The illegal shipment was intended for use by the Iranian-backed

Houthis

The actions of the NRF support the United Nations Security Council Resolution (UNSCR) and are a direct reflection of their commitment to a safe Yemen, Red Sea and Gulf of Aden.

Gen. Michael Erik Kurilla, commander of CENTCOM, praised the actions of the NRF saying, "We commend the legitimate government forces of Yemen who continue to interdict the flow of Iranian munitions bound for the Houthis. The interdiction of this massive Iranian shipment shows that Iran remains the most destabilizing actor in the region. Limiting the free flow of Iranian support to the Houthis is critical to regional security, stability, and freedom of navigation."
